REGISTER II – Partbred PREs with Certified 25% to 99% PRE Apto blood.

The remaining % blood can be from any breed or of unknown ancestry

UK Equine Law - Foals MUST be registered and passported BEFORE 6months old OR by 31st DECEMBER YOY

Our National Breed Association is a Passport Issuing Office (PIO) for DEFRA, and is the UK National Office for the Spanish Studbook - ANCCE-LGPRES, Sevilla, Spain. The BAPSH Ltd also looks after the requirements of Partbred PRE horses with 25% or more of their pedigree descended from PRE Apto ancestors. Any Non-Apto PREs in the pedigree cannot count towards the required % of Apto bloodline, eg. Apto PRE sire to Non-Apto PRE dam = Partbred PRE 50% Apto blood. Non-Apto PRE x Non-Apto PRE = registration in Register IV non-pedigree, non-breeding horses.

Most Partbred PREs are a combination of PRE stallion x mare of another breed or mixture. Where both parents of the foal are fully registered horses of different breeds the breeder must decide which Passport Issuing Organisation (PIO) will be the one to produce the foal's Passport. If the other PIO does not have a Partbred Studbook the decision is straightforward, but where both PIOs have Partbred Studbooks one PIO will issue the passport and the second breed's PIO can register the foal and then Overstamp the passport with their studbook registration details if the breeder or future owners wish it. So as the breeder you need to decide which Studbook you want to hold the primary registration.

We hope you will choose BAPSH Ltd and take pride in your foal's PRE ancestry as detailed in the PRE portion of the pedigree in a BAPSH Ltd passport. Partbreds registered with BAPSH Ltd can compete on an equal footing with PREs and Register IV horses in classes for Spanish and Iberian horses at local and county shows, the GBPRES show, and the British Dressage Championship series for PRE horses.
