

NATIONAL GRADING OF PRE YOUNGSTOCK

2018 PUBLICATON OF RESULTS AND PHOTOGRAPHS

The complete list of the Grading Results giving the Name, Sex, Age, Owner, and Breeder of each horse and the result as Apto or Non-Apto will be published on the BAPSH Ltd Website. As usual, photographs of each horse will be taken during the Grading for the records of the LGPRE and the BAPSH Ltd; in previous years the photos were published in our magazine with just the name of the horse to identify it. However it is important to develop the educational aspects of the annual Grading in order to assist our UK breeders and owners to understand how the current requirements of the Basic Grading standard translates into the actual conformation and overall look of a young PRE horse. For the past few years, with the support and agreement of the owners of the horses entered for the Grading, BAPSH has published each individual horse's photo/s combined with the conformation analysis and scores out of 10 for each of the five scored sections. The comprehensive report on the 2015 Grading was very well received by breeders and owners, and declared to be very helpful and informative for everyone.

The annual Grading is always performed by a very experienced, knowledgeable, and impartial veterinary Delegate from the LGPRE and our ambition is to use the assessments of our horses to benefit and educate our UK owners, breeders, and aficionados to the future betterment of our beautiful PRE horses.

Please write the name of your horse/s below and give your agreement to publish the Grading photos in combination with results on the BAPSH Ltd Website. The alternative is no photo or detailed results of that horse on the website.

Horse Name I Agree to publish/ Don't Publish
